CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q of Agentix Corp., a Nevada corporation (the "Company"), contains "forward-looking statements," as defined in the United States Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by terminology such as "may", "will", "should", "could", "expects", "plans", "intends", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative of such terms and other comparable terminology. These forward-looking statements include, without limitation, statements about our market opportunity, our strategies, competition, expected activities and expenditures as we pursue our business plan, and the adequacy of our available cash resources. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Actual results may differ materially from the predictions discussed in these forward-looking statements. The economic environment within which we operate could materially affect our actual results. Additional factors that could materially affect these forward-looking statements and/or predictions include, among other things: the ongoing coronavirus pandemic, the Company's need for and ability to obtain additional financing, product demand, market and customer acceptance, competition, pricing and development difficulties, as well as general industry and market conditions and growth rates, general economic conditions, and other factors over which we have little or no control; and other factors discussed in the Company's filings with the Securities and Exchange Commission ("SEC").

Our management has included projections and estimates in this Form 10-Q, which are based primarily on management's experience in the industry, assessments of our results of operations, discussions and negotiations with third parties and a review of information filed by our competitors with the SEC or otherwise publicly available. We caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Note 1 - Organization and Basis of Presentation

Description of the Company

FairWind Energy, Inc. (the "Company") was incorporated on April 18, 2013 under the laws of the State of Nevada. Effective June 17, 2019, the Company changed its name to Agentix Corp.

On May 28, 2020, the Company, entered into a Share Exchange Agreement with GSL Healthcare, Inc., a Nevada corporation ("GSL Healthcare"), and the holders of the common stock of GSL Healthcare, which consisted of two stockholders. The closing date occurred on June 1, 2020. The merger between the Company and GSL Healthcare was treated as a reverse capitalization for financial statement reporting purposes with GSL Healthcare deemed the accounting acquirer and the Company deemed the accounting acquiree. Accordingly, GSL Healthcare' assets, liabilities and results of operations became the historical financial statements of the Company.

The Company is a clinical-stage biotechnology company developing therapeutic agents for the treatment of metabolic disease like Type 2 diabetes mellitus, obesity, non-alcoholic fatty liver disease (NAFLD) and non-alcoholic steatohepatitis (NASH).

Merger with Applied Biopharma

In July 2021, the Company entered into and completed an Agreement and Plan of Merger (the "Merger Agreement"), by and among the Company, AB Merger LLC, a Nevada limited liability company and wholly-owned subsidiary of the Company ("AB Merger"), and Applied Biopharma, pursuant to which Applied BioPharma merged into AB Merger and the effect of which is that, upon and assuming consummation of the Merger Agreement, Applied Biopharma became a wholly-owned subsidiary of the Company.

The acquisition of Applied Biopharma was considered immaterial, as Applied Biopharma had minimal activity and had no assets or liabilities as of the date of merger. As such, the Company has included the activity of Applied Biopharma for the period following the completion of the Merger Agreement.

Going Concern

The Company's unaudited consolidated financial statements have been prepared assuming that it will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business.

As reflected in the unaudited consolidated financial statements, the Company had an accumulated deficit on February 28, 2022, a net loss, and net cash used in operating activities. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The Company is attempting to commence operations and generate sufficient revenue; however, the Company's cash position is not sufficient to support its daily operations. While the Company believes in the viability of its strategy to commence operations and generate sufficient revenue and in its ability to raise additional funds, there can be no assurances to that effect. The ability of the Company to continue as a going concern is dependent upon its ability to further implement its business plan and generate sufficient revenue and its ability to raise additional funds by way of a public or private offering.

The unaudited consolidated financial statements do not include any adjustments related to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Principles of Consolidation

The unaudited consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, GSL Healthcare, Inc., AB Merger LLC, and Applied Biopharma, all 100% owned entities. Intercompany transactions and balances have been eliminated in consolidation.

Note 2 - Significant and Critical Accounting Policies and Practices

Basis of Presentation

The accompanying unaudited consolidated financial statements and related notes have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), and with the rules and regulations of the United States Securities and Exchange Commission ("SEC") to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by U.S. GAAP for complete financial statements. The unaudited interim consolidated financial statements furnished reflect all adjustments (consisting of normal recurring accruals) which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. Unaudited interim results are not necessarily indicative of the results for the full fiscal year. These financial statements should be read in conjunction with the audited financial statements of the Company for the reporting period ended August 31, 2021 and notes thereto contained in the Company's Annual Report on Form 10-K.

Fair Value of Financial Instruments

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification ("Paragraph 820-10-35-37") to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in generally accepted accounting principles (GAAP) and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three (3) broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three (3) levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1 Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2 Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level 3 Pricing inputs that are generally unobservable inputs and not corroborated by market data.

Financial assets are considered Level 3 when their fair values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable.

The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. If the inputs used to measure the financial assets and liabilities fall within more than one level described above, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

The carrying amounts of the Company's financial assets and liabilities, such as cash, accounts payable and accrued expenses approximate their fair values because of the short maturity of these instruments. The Company's equity investments are considered Level 3, as pricing inputs are generally unobservable and not corroborated by market data.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined principally on a first-in-first-out average cost basis. Inventories consist of finished goods held for sale. Management regularly reviews inventory quantities on-hand and records an inventory provision for excess or obsolete inventory based on the future expected demand for products. Inventory write-downs are measured as the difference between the cost of the inventory and market value, based upon assumptions about future demand that are inherently difficult to assess. During the six months ended February 28, 2022 and 2021, the Company did not record a provision for excess or obsolete inventory.

Research and Development

The Company follows paragraph 730-10-25-1 of the FASB Accounting Standards Codification (formerly Statement of Financial Accounting Standards No. 2 "Accounting for Research and Development Costs") and paragraph 730-20-25-11 of the FASB Accounting Standards Codification (formerly Statement of Financial Accounting Standards No. 68 "Research and Development Arrangements") for research and development costs. Research and development costs are charged to expense as incurred. Research and development costs consist primarily of remuneration for material and testing costs for research and development.

Related Parties

The Company follows subtopic 850-10 of the FASB Accounting Standards Codification for the identification of related parties and disclosure of related party transactions.

Pursuant to Section 850-10-20 the related parties include a. affiliates ("Affiliate" means, with respect to any specified Person, any other Person that, directly or indirectly through one or more intermediaries, controls, is controlled by or is under common control with such Person, as such terms are used in and construed under Rule 405 under the Securities Act) of the Company; b. entities for which investments in their equity securities would be required, absent the election of the fair value option under the Fair Value Option Subsection of Section 825–10–15, to be accounted for by the equity method by the investing entity; c. trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management; d. principal owners of the Company; e. management of the Company; f. other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests; and g. other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

The financial statements shall include disclosures of material related party transactions, other than compensation arrangements, expense allowances, and other similar items in the ordinary course of business. However, disclosure of transactions that are eliminated in the preparation of consolidated or combined financial statements is not required in those statements. The disclosures shall include: a. the nature of the relationship(s) involved; b. a description of the transactions, including transactions to which no amounts or nominal amounts were ascribed, for each of the periods for which income statements are presented, and such other information deemed necessary to an understanding of the effects of the transactions on the financial statements; c. the dollar amounts of transactions for each of the periods for which income statements are presented and the effects of any change in the method of establishing the terms from that used in the preceding period; and d. amounts due from or to related parties as of the date of each balance sheet presented and, if not otherwise apparent, the terms and manner of settlement.

Deferred Tax Assets and Income Tax Provision

The Company accounts for income taxes under Section 740-10-30 of the FASB Accounting Standards Codification. Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent management concludes it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statements of operations in the period that includes the enactment date.

The Company adopted section 740-10-25 of the FASB Accounting Standards Codification ("Section 740-10-25"). Section 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under Section 740-10-25, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

Earnings per Share

Earnings per share ("EPS") are the amount of earnings attributable to each share of common stock. For convenience, the term is used to refer to either earnings or loss per share. EPS is computed pursuant to section 260-10-45 of the FASB Accounting Standards Codification. Pursuant to ASC Paragraphs 260-10-45-10 through 260-10-45-16, basic EPS shall be computed by dividing income available to common stockholders (the numerator) by the weighted-average number of common shares outstanding (the denominator) during the period. Income available to common stockholders shall be computed by deducting both the dividends declared in the period on preferred stock (whether or not paid) and the dividends accumulated for the period on cumulative preferred stock (whether or not earned) from income from continuing operations (if that amount appears in the income statement) and also from net income. The computation of diluted EPS is similar to the computation of basic EPS except that the denominator is increased to include the number of additional common shares that would have been outstanding if the dilutive potential common shares had been issued during the period to reflect the potential dilution that could occur from common shares issuable through contingent shares issuance arrangement, stock options or warrants.

Pursuant to ASC Paragraphs 260-10-45-45-21 through 260-10-45-45-23 Diluted EPS shall be based on the most advantageous conversion rate or exercise price from the standpoint of the security holder. The dilutive effect of outstanding call options and warrants (and their equivalents) issued by the reporting entity shall be reflected in diluted EPS by application of the treasury stock method unless the provisions of paragraphs 260-10-45-35 through 45-36 and 260-10-55-8 through 55-11 require that another method be applied. Equivalents of options and warrants include non-vested stock granted to employees, stock purchase contracts, and partially paid stock subscriptions (see paragraph 260–10–55–23). Anti-dilutive contracts, such as purchased put options and purchased call options, shall be excluded from diluted EPS. Under the treasury stock method: a. Exercise of options and warrants shall be assumed at the beginning of the period (or at time of issuance, if later) and common shares shall be assumed to be issued. b. The proceeds from exercise shall be assumed to be used to purchase common stock at the average market price during the period. (See paragraphs 260-10-45-29 and 260-10-55-4 through 55-5.) c. The incremental shares (the difference between the number of shares assumed issued and the number of shares assumed purchased) shall be included in the denominator of the diluted EPS computation.

There were no dilutive common shares for the six months ended February 28, 2022.

Stock-Based Payments

Stock-based compensation is accounted for based on the requirements of the Share-Based Payment Topic of ASC 718, "Compensation — Stock Compensation" ("ASC 718"), which requires recognition in the financial statements of the cost of employee and director services received in exchange for an award of equity instruments over the period the employee or director is required to perform the services in exchange for the award (presumptively, the vesting period). ASC 718 also requires measurement of the cost of employee and director services received in exchange for an award based on the grant-date fair value of the award.

For non-employees, the Company follows ASU No. 2018-07, Compensation - Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting. Under the ASU No. 2017-07, most of the guidance on stock payments to nonemployees is aligned with the requirements for share-based payments granted to employees. As such, most of the guidance in ASC 718 associated with employee share-based payments, including most requirements related to classification and measurement, applies to nonemployee share-based payment arrangements.

No stock options or warrants were issued or outstanding as of February 28, 2022.

Recent Accounting Pronouncements

In December 2019, the FASB issued ASU 2019-12, "Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes," which is intended to simplify various aspects related to accounting for income taxes. ASU 2019-12 removes certain exceptions to the general principles in Topic 740 and also clarifies and amends existing guidance to improve consistent application. ASU 2019-12 was effective for the Company beginning in fiscal 2022. Adoption of ASU 2019-12 did not have an impact on the Company's financial statements.

On August 5, 2020 the FASB issued the ASU 2020-06 "Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging— Contracts in Entity's Own Equity (Subtopic 815-40)". The amendments in this update address issues identified as a result of the complexity associated with applying generally accepted accounting principles for certain financial instruments with characteristics of liabilities and equity. For convertible instruments, accounting models for specific features are removed and amendments to the disclosure requirements are included. For contracts in an entity's own equity, simplifies the settlement assessment by removing some requirements. Additionally, the amendments in this update affect the diluted EPS calculation for instruments that may be settled in cash or shares and for convertible instruments. The amendments in this update are effective for fiscal years beginning after December 15, 2021, and interim periods within those fiscal years. The Company is assessing the effects, if any, that the adoption of this accounting pronouncement may have on its financial statements.

Note 3 – Related Parties

During the six months ended February 28, 2022, the Company incurred $326,000 of management fees of which $250,000 related to non-cash stock compensation for the issuance of 500,000 shares of the Company's common stock issued at a fair market value on the date of issuance of $0.50 per share; $30,000 for reimbursement of rent; and $8,530 of advances to the Company to cover certain operating expenses and accounts payable from SBS Management LLC, a company controlled by Mr. Scott Stevens who is a shareholder of the Company. The fair market value of the common stock issued was determined based on the historical market price of the Company's common stock as of the date of issuance. As of February 28, 2022, $261,359 was included in Accounts payable – related party on the accompanying unaudited balance sheet. During the six months ended February 28, 2021, the Company incurred $75,000 of management fees; $30,000 for reimbursement of rent; and $8,487 of advances to the Company to cover certain operating expenses and accounts payable from SBS Management LLC. As of August 31, 2021, $127,233 was owed to SBS Management LLC and was included in Accounts payable – related party on the accompanying unaudited balance sheet. The advances are unsecured, non-interest bearing, with no formal terms of repayment.

During the six months ended February 28, 2022, Gray's Peak Capital, a company founded by a shareholder of the Company, made advances to the Company to cover certain operating expenses. These advances are unsecured, non-interest bearing, with no formal terms of repayment. As of February 28, 2022 and August 31, 2021, the amounts due Gray's Peak Capital for these advances was $201,120 and $120,870, respectively, and was included in accounts payable – related party on the accompanying balance sheet.

During the six months ended February 28, 2022, the Company incurred $461,000 of consulting fees of which $375,000 related to non-cash stock compensation for the issuance of 750,000 shares of the Company's common stock issued at a fair value on the date of issuance of $0.50 per share, from a consulting agreement with the Company's SVP Portfolio & Business Development. The fair market value of the common stock issued was determined based on the historical market price of the Company's common stock as of the date of issuance. As of February 28, 2022 and August 31, 2021 $193,500 and $107,500, respectively, was included in accounts payable – related party on the accompanying balance sheet.

During the six months ended February 28, 2022, the Company incurred $465,000 of consulting fees of which $375,000 related to the non-cash issuance of the 750,000 shares of the Company's common stock issued at a fair value on the date of issuance of $0.50 per share, from a consulting and employment agreement with its CEO. The fair market value of the common stock issued was determined based on the historical market price of the Company's common stock as of the date of issuance. As of February 28, 2022 and August 31, 2021, $220,000 and $130,000, respectively, was included in accounts payable – related party on the accompanying balance sheet.

During the six months ended February 28, 2022, the Company incurred $750,000 of consulting fees related to the non-cash issuance of 1,500,000 shares of the Company's common stock at a fair market value of $0.50 per share on the date of issuance to Emmes Group Consulting LLC ("Emmes"), which the Company's Chief Scientific Officer is the managing director of Emmes. The fair market value of the common stock issued was determined based on the historical market price of the Company's common stock as of the date of issuance.

Note 4 – Equity

As of February 28, 2022 and August 31, 2021, the Company has authorized 50,000,000 shares of common stock at a par value of $0.001 per share and had issued and outstanding shares of common stock of 38,916,951 and 34,874,605, respectively.

Shares issued

During the six months ended February 28, 2022, the Company issued 22,346 shares of the Company's common stock in exchange for a one year software subscription, which totaled $20,000. The fair value of the common stock issued was $0.89, which was determined based on the historical market price of the Company's common stock as of the date of issuance. The fair value determined is being amortized ratably over the one year subscription period to general and administrative expenses.

As of August 31, 2021, the Company had not issued 520,000 shares previously sold and as such $180,000 was reflected in the accompanying consolidated balance sheet as common stock to be issued. During the six months ended February 28, 2022, all shares had been issued.

During the six months ended February 28, 2022, the Company issued 3,500,000 shares of its common stock to related parties. See Note 3.

During the six months ended February 28, 2022, the Company issued 200,000 shares of its common stock sold at a price of $0.50 per share which was previously sold and reflected as common stock to be issued as of August 31, 2021.

Note 5 – Subsequent Events

In accordance with ASC 855, the Company has analyzed its operations subsequent to February 28, 2022 through the date these financial statements were issued and has determined that it does not have any material subsequent events to disclose in these financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following information should be read in conjunction with (i) the financial statements of Agentix Corp., a Nevada corporation (the "Company"), and development stage company, and the notes thereto appearing elsewhere in this Form 10-Q together with (ii) the more detailed business information and the August 31, 2021 audited financial statements and related notes included in the Company's Form 10-K (File No. 000-55383; the "Form 10-K"), as filed with the Securities and Exchange Commission on October 7, 2021. Statements in this section and elsewhere in this Form 10-Q that are not statements of historical or current fact constitute "forward-looking" statements.

Merger with GSL Healthcare

On May 28, 2020, we entered into a Share Exchange Agreement (the "Share Exchange Agreement"), by and among the Company, and GSL Healthcare, Inc., a Nevada corporation ("GSL Healthcare"), and the holders of common stock of GSL Healthcare, which consisted of two stockholders. The closing date occurred on June 1, 2020.

Under the terms and conditions of the Share Exchange Agreement, we offered and sold 27,932,271 shares of our common stock of the Company in consideration for all of the issued and outstanding shares of common stock of GSL Healthcare. The effect of the issuance is that former two GSL Healthcare shareholders hold approximately 88.0% of the then issued shares of common stock of the Company, and GSL Healthcare is now a wholly-owned subsidiary of the Company.

The merger between the Company and GSL Healthcare was treated as a reverse capitalization for financial statement reporting purposes with GSL Healthcare deemed the accounting acquirer and the Company deemed the accounting acquiree. Accordingly, GSL Healthcare' assets, liabilities and results of operations became our historical financial statements. Prior to the Share Exchange, we had 3,806,613 shares of outstanding common stock which remained outstanding as part of the merger.

Merger with Applied Biopharma

In July 2021, we entered into and completed an Agreement and Plan of Merger (the "Merger Agreement"), by and among our Company, AB Merger LLC, a Nevada limited liability company and our wholly-owned subsidiary ("AB Merger"), and Applied Biopharma, pursuant to which Applied BioPharma merged into AB Merger and the effect of which is that, upon and assuming consummation of the Merger Agreement, Applied Biopharma became a wholly-owned subsidiary of our Company.

We paid one share of our common stock for the acquisition of Applied Biopharma under the terms and conditions of the Merger Agreement. The acquisition of Applied Biopharma was considered immaterial, as Applied Biopharma had minimal activity and had no assets or liabilities as of the date of acquisition. As such, we have included the activity of Applied Biopharma for the period following the completion of the Merger Agreement.

COVID-19

We continue to evaluate the impact of the COVID-19 pandemic on the industry and our Company and have concluded that while it is reasonably possible that the virus could have a negative effect on our financial position and results of our operations, the specific impact is not readily determinable as of the date of this filing. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States ("US GAAP"). The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We have identified the policies below as critical to our business operations and to the understanding of our financial results:

Basis of Accounting

Our financial statements and related notes have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), and with the rules and regulations of the SEC to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The unaudited interim financial statements furnished reflect all adjustments (consisting of normal recurring accruals) which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. Unaudited interim results are not necessarily indicative of the results for the full fiscal year. These financial statements should be read in conjunction with our audited financial statements for the reporting period ended August 31, 2021, as filed on October 7, 2021, and notes thereto contained in our Annual Report on Form 10-K.

Deferred Tax Assets and Income Tax Provision

We account for income taxes under Section 740-10-30 of the FASB Accounting Standards Codification. Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent we conclude it is more likely than not that the assets will not be realized. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the statements of operations in the period that includes the enactment date.

We adopted section 740-10-25 of the FASB Accounting Standards Codification ("Section 740-10-25"). Section 740-10-25 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under Section 740-10-25, we may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent (50%) likelihood of being realized upon ultimate settlement. Section 740-10-25 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

Recent Accounting Pronouncements

We do not expect the adoption of recently issued accounting pronouncements to have a significant impact on its results of operations, financial position or cash flow.

RESULTS OF OPERATIONS

Three Months Ended February 28, 2022 as compared to Three Months Ended February 28, 2021:

We recorded no revenues during the three months ended February 28, 2022 and 2021.

For the three months ended February 28, 2022, we incurred total professional fees of $1,863,848 as compared to $511,904 for the three months ended February 28, 2021. The increase was mainly related to $1,770,000 non-cash stock compensation related to our issuance of our common stock in exchange for services as compared to $381,150 for the three months ended February 28, 2021.

For the three months ended February 28, 2022, we incurred total research and development expenses of $84,050 as compared to $178,332 for the three months ended February 28, 2021. The decrease of $94,282 primarily related to availability of funds.

For the three months ended February 28, 2022, general and administrative expenses were $69,452 as compared to $16,830 for the three months ended February 28, 2021. The increase was related to royalties we paid for a license.

Six Months Ended February 28, 2022 as compared to Six Months Ended February 28, 2021:

We recorded no revenues during the six months ended February 28, 2022 and 2021.

For the six months ended February 28, 2022, we incurred total professional fees of $1,972,313 as compared to $696,467 for the six months ended February 28, 2021. The increase was mainly related to $1,770,000 non-cash stock compensation related to our issuance of our common stock in exchange for services as compared to $381,150 for the six months ended February 28, 2021.

For the six months ended February 28, 2022, we incurred total research and development expenses of $127,000 as compared to $193,720 for the six months ended February 28, 2021. The decrease of $94,282 primarily related to availability of funds.

For the six months ended February 28, 2022, general and administrative expenses were $84,787 as compared to $33,497 for the six months ended February 28, 2021. The increase was related to royalties we paid for a license.

For the six months ended February 28, 2022, cash from our operations generated $674 of cash as compared to a use of cash of $321,907 during the six months ended February 28, 2021. The decrease in cash used in our operations related primarily to obtaining funding from our related parties to pay operating expenses as compared to prior year in which we had a higher cash balance that was available to pay operating costs. In addition, we received $80,000 from the proceeds of our sale of common stock during the six months ended February 28, 2021, which did not occur during the six months ended February 28, 2022. Further, we did not incur or obtain cash from investing activities during the six months ended February 28, 2022 and 2021, respectively.

Liquidity and Capital Resources

Our unaudited consolidated financial statements have been prepared assuming that we will continue as a going concern, which contemplates continuity of operations, realization of assets, and liquidation of liabilities in the normal course of business. As reflected in our unaudited consolidated financial statements for the six months ended February 28, 2022, we had an accumulated deficit, we did not incur any revenue and we had a net loss along with minimal cash generated from our operations. In addition, we owe our vendors and related parties $1,037,548 as of February 28, 2022. These factors raise substantial doubt about our ability to continue as a going concern.

We are attempting to commence operations and generate sufficient revenue; however, our cash position is not sufficient to support our daily operations. As such, we will need to raise funds to complete our plan of operation and fund our ongoing operational expenses for the next 12 months. Additional funding will likely come from equity financing from the sale of our common stock or debt financing. If we are successful in completing an equity financing, existing shareholders will experience dilution of their interest in our Company and if we obtain debt financing, the terms of any such debt financing may not be favorable to existing shareholders. We cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or obtaining debt to fund our development activities and ongoing operational expenses. In the absence of such financing, our business will likely fail. There are no assurances that we will be able to achieve further sales of our common stock or any other form of additional financing. If we are unable to achieve the financing necessary to continue our plan of operations, then we will not be able to continue our development to complete our plan of operation and our business will fail.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on the financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders

Subsequent Events

In accordance with ASC 855, we have analyzed our operations subsequent to February 28, 2022 through the date these financial statements were issued, and have determined that we don't have any other material subsequent events to disclose in these financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

As a smaller reporting company (as defined in Rule 12b-2 of the Exchange Act), we are not required to provide the information called for by this Item 3.

ITEM 4. CONTROLS AND PROCEDURES.

DISCLOSURE CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, our President and Chief Executive Officer, who acts as both our principal executive officer and our principal financial officer, are responsible for conducting an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of the end of the fiscal year covered by this report. Disclosure controls and procedures means that the material information required to be included in our Securities and Exchange Commission reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms relating to our company, including any consolidating subsidiaries, and was made known to us by others within those entities, particularly during the period when this report was being prepared. Based on this evaluation, our principal executive officer and principal financial officer concluded as of the evaluation date that our disclosure controls and procedures were not effective as of February 28, 2022.

There were no changes in the Company's internal controls over financial reporting during the most recently completed fiscal quarter that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

The Company is not currently subject to any legal proceedings. From time to time, the Company may become subject to litigation or proceedings in connection with its business, as either a plaintiff or defendant. There are no such pending legal proceedings to which the Company is a party that, in the opinion of management, is likely to have a material adverse effect on the Company's business, financial condition or results of operations.

ITEM 1A. RISK FACTORS

As a smaller reporting company (as defined in Rule 12b-2 of the Exchange Act), we are not required to provide the information called for by this Item 1A.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

None.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS.

Title: President and Chief Executive Officer
(principal executive officer, principal accounting officer and principal financial officer)

EXHIBIT 31.1

SECTION 302 CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER OF AGENTIX CORP.

I, Rudy Mazzocchi, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Agentix Corp.;

2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;

3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a–15(e) and 15d–15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a–15(f) and 15d–15(f)) for the registrant and have:

   (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
